

Co-creation workshop with Nordic Innovation

CLUSTERS AS DRIVERS OF NORDIC SMART MOBILITY AND CONNECTIVITY

SAVE THE DATE!

MAY 16, 10.00-16.00 STOCKHOLM

Nordic Innovation invites Nordic clusters to the workshop **Nordic Smart Mobility and Connectivity**. Smart mobility and connectivity is one of Nordic Innovation's three new thematic priorities. And the main objective of the workshop is to develop cluster-driven projects on smart mobility and connectivity.

Smart mobility and connectivity is about connecting people, places, goods and services, knowledge, information and data. Smarter and better by using new technologies and innovations. It is also about developing new business models and new value chains through cross-sectorial cooperation. All types of infrastructure are covered, physical and digital – by air, land and water.

If your cluster is engaged in cross sectorial innovation within transportation, mobility and connectivity - with digitalization, internet of things, virtual reality, artificial intelligence, logistics, green solutions or automatization as part of this – this workshop is for you.

AT THE WORKSHOP, YOU CAN:

- Bring back new project ideas: Co-develop project ideas on Nordic smart mobility and connectivity with Nordic clusters.
- Make your voice heard: Give inputs to Nordic Innovations application procedure – so your new exciting project ideas might get funding.
- Get insights into Nordic Innovation: What are the strategic priorities for the coming years? How does the funding work? Why the focus on clusters?

[READ MORE →](#)

Target group: Nordic clusters working directly or indirectly with smart mobility and connectivity from classic transport/logistic clusters to cross sectorial clusters (e.g. ICT/digital clusters, robotics, drones, design, automatization etc.).

Participation is free of charge but requires registration. Register to Kaspar Nielsen, Cluster Excellence Denmark on kan@clusterexcellencedenmark.dk no later than May 11.

The workshop is organised by Nordic Innovation and Cluster Excellence Denmark in close coordination with key Nordic ministries and agencies: Vinnova, Innovation Norway, Innovation Center Iceland, Business Finland and the Danish Agency for Institutions and Educational Grants.

What is Nordic Innovation:

Nordic Innovation is a Nordic organisation working to promote cross-border trade and innovation. The organisation shall contribute to make the Nordic region a leading region for sustainable growth, and increase entrepreneurship, innovation and competitiveness in the Nordic region.

Nordic Innovation is funded by the Nordic Council of Ministers, which is the official inter-governmental body for cooperation in the Nordic region. Nordic Innovation has an annual budget of appx. NOK 75 million and supports projects and programs to stimulate innovation and works to improve the framework conditions for Nordic markets and exports.
