19th March 2019, Lithuania

[Park Inn Hotel](#)

Lithuanian Agency for Science, Innovation and Technology invites all parties who are interested in creating international partnerships with clusters and companies in the Baltic region to the second conference & matchmaking event the BALTIC CLUSTER FORUM 2019 which will take place in Kaunas, Lithuania on **March 19th**.

Come to network

BALTIC CLUSTER FORUM provides excellent platform to gather latest insights, network and find new partners. Extensive matchmaking session for C2C (cluster to cluster) and B2C (business to cluster) is hosted in addition to informative conference, where experts from different countries share their knowledge. The First conference and matchmaking event BALTIC CLUSTER FORUM attracted more than 200 participants from 7 countries and its success confirmed the necessity of this kind of event.

Registration to C2C and B2C session is open [here](#), but please complete the [registration for the event](#) first!

Come to learn

BALTIC CLUSTER FORUM 2019 this year is officially included in EU Cluster Weeks initiative and will focus on one of the key factors to ensure growth and success in the future clusters: innovation. During the conference, variety of local and foreign experts will provide best practices to start, promote and sustain innovation process, reveal the significance of international and cross-sectoral partnerships in fuelling innovation engine.
