INFO

WHAT IS COSME AND WHAT'S IN IT FOR THE CLUSTERS?

The Programme for the Competitiveness of Enterprises and Small and Medium-Sized Enterprises (SMEs) – COSME – is the EU's programme to strengthen the competitiveness and sustainability of enterprises. Through COSME, EU finances some calls directed to clusters. In this dialogue meeting, the focus is on cluster excellence and cluster internationalisation. It is especially – but not limited to – these calls for which the EU is looking for inputs during the workshop.
